II. New Business

Leadership Plan Timeline

Bobbie presented Andy's plan for the SIP. The process will contain three phases:

1. Identify major areas of focus to be completed before the end of September 2017
2. Evaluate capacity of school leadership to lead the work and determine what ad hoc committees need to be developed before the end of September 2017
3. Articulate action items and measurable goals for the remainder of the academic year done by the end of November 2016
4. Measure progress of year one of the three year plan and set goals for the next academic year by the end of may 2017

Andy would like to open this up to the staff for their input. He is hoping to mesh the school improvement plan with the leadership plan.

Asher noted that is was discussed in staff council that there may be a change in personnel for Site Council meetings, as department heads may be meeting 2x a month outside of site council.

Professional Development Plan

Andy is waiting on information from the district office before the definitive schedule for PD can be confirmed. There may be a change in how project days are executed.
