

Creative Current

4J DESIGN STUDIO

An innovative opportunity for
students in grades 11-12,
delivering hands-on learning
through design projects that
benefit the community

At Creative Current you'll be part of a team that creates and operates a digital design company—a real business—developing logos, posters, videos, and digital marketing collateral for real clients, including district-based and local non-profit organizations. After completing our one or two-year sequence, you'll be prepared for a variety of next steps, including entry-level jobs in the digital media or graphic design industry, starting your own business or doing freelance digital design work, or next-level education, either at the community college or university level.

WHO: Any **4J Junior or Senior student** who is interested in the design industry and is willing to commit to a daily half-day program.

NO EXPERIENCE NECESSARY!

WHEN: Choose from two sessions:

Morning Session Periods 1, 2, 5, and 6.

Afternoon Session Periods 3, 4, 7, and 8.

On Wednesday, you'll work at your host school in a designated location.

WHERE: Our **downtown design studio** is located at 1045 Willamette Street, across from the LTD downtown bus station.

TRANSPORTATION: School buses transport students from their schools. Students may also ride LTD buses to our downtown studio.

FOR MORE INFORMATION: Contact your high school counselor or administrator. You can also call **541-731-0199** or email the teachers:
